Diagnostic Information: Oven 1 (http://iot.uni-trier.de/FTOnto#OV_1)

Condition Information:

- Transport time
- Wear factor/rate
- Wear change type

Possible Faults:

- Motor coils: light wear
    - Transport Time > 5000 ms && wear change type == stable
    - Transport Time > 5000 ms && wear change type == increasing
- Motor coils: medium wear
    - Transport Time > 8000 ms && wear change type == stable
    - Transport Time > 7000 ms && wear change type == increasing
- Motor coils: critical wear
    - Transport Time > 10000 ms && wear change type == stable
    - Transport Time > 9000 ms && wear change type == increasing
- Motor coil failure
    - Transport time > 12000 ms && wear change type == stable
    - Transport time > 12000 ms && wear change type == increasing
